POLSKIE
FORUM KLIMATYCZNE

Thank You, Fate, for giving me such a beautiful land to live in, where I have everything I need to be a fully Rational Man.

I look around me and can see all the beauty You have bestowed on me, and I vow to use Your gifts to serve all, now and in the future. I promise to work the earth in such a way as not to harm it, but to enrich it.

Before my mind's eye I can see a long line of those who have gone before me and those who will come after me. When I leave for the "last watch", I would like to report to the former that I have fulfilled well the role of the host entrusted to me. I will leave a message to the latter to remember that this land is not given to them, but entrusted and should be managed according to the principles of sustainable development and care for the common good. We are the "owners" for a very short period of time, but in fact we belong to Gaia and it is she, the natural environment, that determines our behaviour.
